

Consultation response from: Consumer. Received by email on 28/10/2024:

Below is my response to your consultation.

Another (continued) fecking stupid idiotic ofgem mechanism to rig the market to keep consumer prices high.

Ofgem are staffed by a bunch of incompetent useless morons who couldn't regulate a piss up in a brewery. Ofgem staff are in the pockets of big businesses determined to line the pockets of energy firms

I hate ofgem for being utterly useless morons. Sack everyone.

Ends

All the very best

Matt Kirk
