22nd October 2024

Dear Shaun

Statutory Consultation on proposed modification to the Special Conditions and Standard Special Conditions of the Gas Transporter licence

Thank you for the opportunity to provide representation on the above noted proposal which relates to the sunset conditions that were put in place to help improve the provision of metering services during the transition to smart meters.

As stated in our response, dated 2nd September 2024, we appreciate that the original envisaged timelines have been impacted by external factors resulting in the condition end dates needing to be extended.

Northern Gas Networks have reviewed the drafting for licence changes applicable to ourselves and believe that these match the proposal intent.

I hope these comments will be of assistance and please contact me should you require any further information in respect of this response.

Yours sincerely,

Tracey Saunders (via email)
