Mr. Iain Osborne,  
Director, Supply,  
Ofgem,  
9 Millbank,  
LONDON,  
SW1P 3GE.

Dear *Iain,*

## Restriction on self-supply

Thank you for the opportunity to respond to the above consultation.

We agree with Ofgem analysis that finds that competition in generation and supply is now such that the restriction is no longer necessary. Furthermore, it is inappropriate to have in place a restriction that does not apply to all supply companies and cannot be reliably enforced, potentially putting some at a competitive disadvantage.

Therefore, Seeboard Energy fully supports Ofgem's proposal to remove the self-supply restriction from the licences of certain suppliers.

We hope that you find our comments useful.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Alan Jones". The signature is written in a cursive style with a large, looped initial 'A'.
