Project code:	UKPNT205	Question Number	8
Question date	29 August 2013	Answer date	2 September 2013
Submission section question relates to	Section 2: Project description		
Topic	Technical		
Question	Is room temperature measured and communicated in real-time or post event?		
Notes on question			
Answer	It is envisioned for V-CEE that temperature readings within the participants household will be measured real-time (at a resolution of 2 minutes) and at a minimum (dependant on selected solution) readings to be collected every three months during trials via a home visit.
